Eliza,

I got a call on Sunday to help with the Gold King Mine Blowout so I am on emergency response in Durango, CO till the end of the month. Please send them to the Fed Center to schedule the fit test with Aimee over there since I wont be able to do it.

Thanks

Jason

Hi Jason

Here is the situation with the RFT for EPA. We have received a new portacount that needs a printer (it is being shipped). Our old portacount is being calibrated and will hopefully be back sometime next week. You have some employees that need their fit test possibly sooner than I can provide it.

Jeff Mosal (we are sending in his old card with the paperwork)

Annette Maxwell (needs fit test prior to 24th)

Can you do Annette's test?

Not sure of others, but I have a list of 9 others that will need to return for the fit test.

Sorry for the inconvenience.
